Buckeye Career Center conforms to all federal, state and local laws and regulations, including Title IX and nondiscrimination against any student because of race, color, sex, religion, citizenship, economic status, marital status, pregnancy, handicap, disability, age or national origin. This policy of nondiscrimination shall also apply to otherwise qualified handicapped individuals.

# SafeLandUSA

**Safety Training for the  
Oil & Gas Industry**

## **SAFELANDUSA**

SafeLandUSA is a volunteer organization comprised of major and independent operating companies, industry associations, and educators with the purpose of developing a standardized orientation which sets minimum requirements for the US Onshore E & P Industry.

### **Benefits of SafeLandUSA**

- ♦Orientation designed specially for the US Onshore E & P Industry.
- ♦Consistent EH&S orientation which is industry recognized and widely accepted.
- ♦Orientation remains with employee throughout career.
- ♦Quality assurance through an audit program and oversight committee.
- ♦Eliminates redundancy of multiple orientations for a single employee.

### **Target Audience**

An essential course for any employee that is new to the Oil & Gas and Petrochem Industry that will consistently be working in plant, dockside, onshore or offshore facilities. This is required for any employee of a company that does exploration, production, drilling and/or refining work for any of the leading operators.

### **SafeLandUSA Course Objectives**

- ♦To prepare the student to know what types of additional safety training they will need in order to work for the various operators at both onshore and offshore facilities.
- ♦To create a mind set in each student that will help them to play an active role in the safety program at their work facility.
- ♦To explain to each student the value of asking questions when they do not understand a certain aspect of the job.
- ♦To ensure that each employee that has completed this program has an identification card indicating that they have completed the course.
